

WHEN DO SENIORS NEED POST HOSPITAL CARE?

Seniors often need additional care following serious hospitalizations due to:

Surgery

Injury

Illness

Marquis' post hospital care provides a supportive environment for healing;

Rehabilitation and Skilled Nursing

Marquis' expertly trained clinical and therapeutic staff can handle all rehabilitation and therapy your senior loved one may need during their healing process.

Medication Management

This process is managed by our in-house pharmacy and a team of board certified geriatric pharmacists. Our licensed nurses and nurse practitioners oversee and dispense all medications.

What happens after post hospital care?

Post hospital care is meant to be an interim measure prior to a patient returning home. However, sometimes after therapy and recovery has ended, additional support and continuing care are necessary.

When this is the case, Marquis offers a full spectrum of care and living options:

Assisted Living

Memory Care

Long Term Care

AgeRight Care at Home

Independent Living

Post Hospital Care Services

Our teams support seniors and families through every step of the post hospital care journey.

Contact Marquis Companies today to learn more about care options.
